

Cookie Policy

Our website can be found at: <https://www.Libertum.io>.

Our website uses cookies to distinguish you from other users of our website. This helps us to provide you with a good experience when you browse our website and also allows us to improve our site.

A cookie is a small file of letters and numbers that we store on your browser or the hard drive of your computer if you agree. Cookies contain information that is transferred to your computer's hard drive.

We use the following cookies:

- Strictly necessary cookies.
- Analytical or performance cookies
- Functionality cookies.
- Targeting cookies.

You can find more information about the individual cookies we use and the purposes for which we use them in the table below:

Cookie Title Cookie Name	Purpose	Cookie Expiry Period
Session Cookie	These cookies expire and are deleted at the end of a browser session, that is, from when you open the browser to when you exit it.	End of the session
Persistent cookies	This cookie is stored on the user's terminal equipment between browsing sessions, until it reaches a defined expiration date. They therefore enable the website to "recognise" you on your return, to remember your preferences and to tailor services to you.	1 year
Third-party cookies	These cookies are planted by parties, other than the website operator (as defined by the URL placed in the address bar of the browser). It usually happens when the website incorporates images, social media plugins or advertising from other sites, as these can set cookies as well.	Please refer to the Party's Cookie Policy

Please note that third parties may also use cookies, over which we have no control. These third parties may include, for example, advertising networks and providers of external services like web traffic analysis services. These third party cookies are likely to be analytical cookies or performance cookies or targeting cookies.
